Summary

Oriented Full-Stack Web Developer committed to develop and fix details and optimized apps. I am a Jr. programmer with good knowledge of front-end and back-end techniques. I love to work with a team of developers, fix bugs, add new features, and making upgrades to the existing applications. I have the ability to work with minimum supervision, problem solving, and excellent grasp of analytics data. I am an eager learner and always excited and passionate about helping people, also I love to use my technical skills and collaborate with a team of developers to maintain clean code by following code standards and work with the best practice.
